Survey Technician (Windsor, ON)

People are at the centre of our brand. Every day we deliver on our brand promise to Cherish Customers, Deliver Flawlessly, and stay a Step Ahead. Our people look beyond the conventional and reach for the extraordinary to win outside the box.

UTS Consultants' reputation is built on providing comprehensive engineering solutions. Our philosophy is to engineer it once. Our quality workmanship ensures projects are completed on time and on budget.

Successful UTS employees:

- are Customer-centric – they understand and embrace the role of delivering exemplary customer service
- are Leaders – who lead by example through their actions and attitudes
- are Innovators - they look for opportunities to improve, do things differently, and add value for our customers and business
- Commit to Excellence - in all that they do

ABOUT THE ROLE

Reporting to the Survey Manager, Survey Technicians are responsible for obtaining base and structural data in the field for aerial and underground telecommunications and hydro infrastructure and cable placing projects. Data gathering is achieved by a combination of manual and digital survey techniques.

ACCOUNTABILITIES

- Gathering of topographical data for existing road rights of way, pole lines and other structures.
- Travel throughout Ontario as required.
- Interface with project managers and departmental supervisors to meet client specifications and deadlines.
- Adhere to client and company standards.
- Identify design concerns in the field.
- Produce manual pole profile sketches.
- Strong safety acumen for employees, contractors and the public.

QUALIFICATIONS

- Graduate of a recognized College program in surveying, civil technology or containing a course module in survey techniques.
- Experience with AutoCAD in a civil/municipal based environment.
- Previous working knowledge with GPS survey equipment and total station systems.
- Valid G driver's license and proof of a clean driving record.
